

**PRESS RELEASE AS OF 2015-05-21**

**The award for product innovation and outstanding performance goes to...**

**“INDUSTRIE-Bestenliste“ to recognize esz AG’s Asset Expert.**

esz AG’s test & measurement equipment management software Asset Expert was recognized by “INDUSTRIE-Bestenliste“ for product innovation and outstanding performance. “INDUSTRIE-Bestenliste” is an annual listing by “Huber Verlag” indicating most significant German products and product innovations. For 10 consecutive years “Huber Verlag” is dedicated to honor ingenious product solutions in particular with respect to technological, economical, ecological and social impact.

Asset Expert is a product innovation introduced by German, leading calibration laboratory esz AG calibration & metrology. esz AG’s Asset Expert is a web-based software application for comprehensive test and measurement equipment management. Asset Expert is designed to assist users in administering test and measurement equipment including useful functions such as inventory, status, availability and location. In addition, Asset Expert provides instant access to calibration reports and past equipment data. Sebastian Oehrl, Asset Expert Project Owner at esz AG elaborates: “Asset Expert is a clear plus. The software application is means to an accelerated calibration process. Thus, Asset Expert is designed to streamline quality management, providing real-time access to data and will nevertheless assist in decreasing administrative effort and cost.”
