

PRESS RELEASE – CONTROL 2016

Thinking outside the box: esz AG's smart and powerful software application "Calibration Expert"

Fast, simple and efficient – three terms that signify esz AG's calibration software Calibration Expert. esz AG calibration & metrology – one of Europe's leading calibration laboratories – introduce their unique, powerful software application to the public at Control 2016 in Stuttgart, Germany.

When? Tuesday, April 26 through Friday, April 29, 2016

Where? Conference Center Stuttgart, Germany, Exhibition Hall 3, Booth/ Stand 3500

Calibration Expert is the most prominent market innovation. The software application is determined to assist calibration engineers and metrologists in their quest for standardized calibration, definite results and transparent reports. In addition Calibration Expert offers means to speed-up laboratory management in a simpler, more efficient way. Calibration Expert is unique including more than 50 parameters and relations in order to address uncertainty factors such as reading error.

"Our objective at this year's Control is to facilitate awareness for Calibration Expert's potential, our outstanding capabilities in terms of DAkkS-accredited and ISO-compliant calibration and our commitment and dedication to customer service." – Bodo Seewald, member of the board of directors and head of sales and marketing at esz AG calibration & metrology.

Besides displaying innovative products and an exclusive, customized scope of service esz AG is seeking to start a dialog among visitors, measurement experts and calibration enthusiasts. In the end Control, with more than 900 exhibitors, representing 32 countries is an important market indicator for trends and technological developments.
